A CLASS APART- YEARBOOK 2024 60

FROM THE PRINCIPAL'S Pen

As we reach the final chapter of this academic year, I find myself reflecting on the shared moments that have defined our journey—moments of discovery, perseverance, creativity, and celebration.

Each child who walked through our gates this year brought with them a spark—a spark that our school has strived to nurture through meaningful learning, vibrant expression, and compassionate guidance. From the joyful echoes of Blue Day in our nursery classrooms to the thought-provoking debates of our senior students, the spirit of curiosity and courage has thrived in every corner of our campus.

We inaugurated new spaces for exploration, like our multiskill lab, and opened new windows to the world through career counselling sessions. We stood in quiet admiration before masterpieces at the Art Expo, and we came together in laughter and gratitude during the Teachers' Day celebration. Every month brought with it a unique rhythm, and together, we created a symphony of learning and growth. This yearbook is a testament to the memories we've made and the milestones we've reached. It holds within its pages the laughter of our students, the commitment of our educators, and the unwavering support of our parent community.

To our graduating students, may you carry forward the values and experiences you've gained here as you step confidently into new beginnings. And to every student, teacher, and family member—you are the heart of this school, and your presence is what made this year truly meaningful.

As you flip through these pages, may you be reminded of how far we've come—and may the memories you find here bring both a smile and a sense of pride.

FOREWORD

A *Journey* through Words

Beauty abounds all around us, and within us. Beauty radiates from our words and deeds. Giving wings to those words is the language of English in all its glory. As the HOD of the department, it was a journey filled with pride in the exuberance and creative displays when the facilitators took on the onus of aiding the child to master the language. From setting an example through assembly talks to displaying interactive study material on the Department Notice Board, creative heads ideated and strategized; to inculcate in the student a love for the language.

The learners took to all these activities like fish to water. They researched and participated with a fervour that won them laurels and appreciation in various competitions and opportunities created for them. Their expressions were featured in posters created by Ratnasagar publication, in newsletters, in Times NIE; to name just a few. Taking it a notch higher, Phrontistery Chronicles will call to attention some of the magnificent handiworks of the students to satiate your soul.

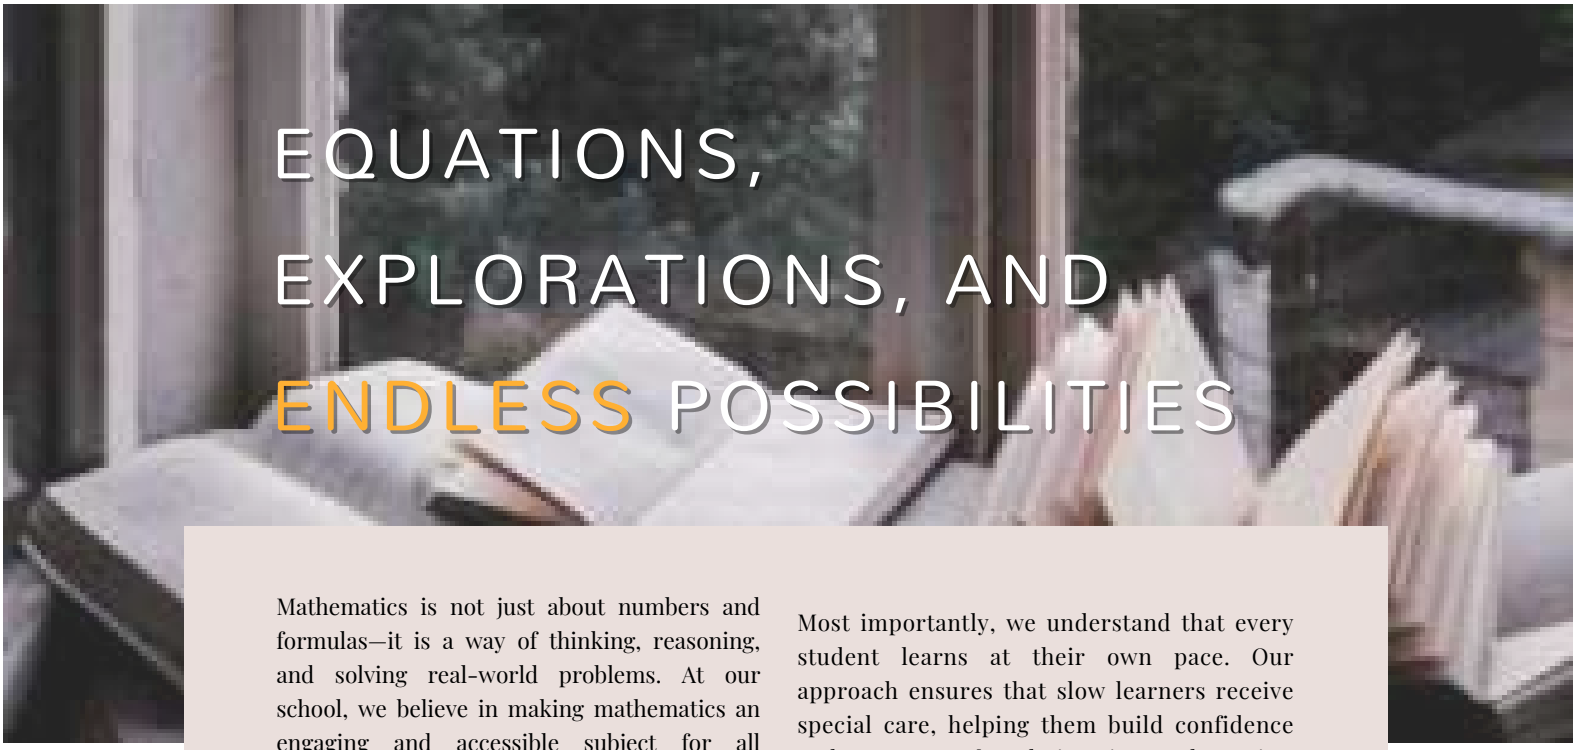

VISTA has carved a niche for itself in the arena of education. It incessantly strives to rise beyond expectations, think out of the box and constantly endeavour to cultivate in the learner an aura of curiosity, confidence and charisma. The teachers are gilded with professional development workshops to equip themselves with the nuances of the language and in turn bestow it upon our young leaders to make their experience a cakewalk. Our magazine thus gives you a small glimpse of a picture that is larger than life and spans an entire academic year.

Mrs. Beaulah Suchithra
Academic Head. HOD (English)

साहित्य की सुरभि: शब्दों का संगम

Bहिंदी विभाग के प्रमुख के रूप में, मुझे यह बताते हुए खुशी हो रही है कि इस वर्ष हमने कई नवाचारों और क्रियात्मक शिक्षण विधियों के माध्यम से छात्रों को हिंदी भाषा और साहित्य के प्रति और अधिक जागरूक किया। हम मानते हैं कि विषय को जीवंत और रुचिकर बनाना बहुत अधिक महत्त्वपूर्ण है, इसलिए हमने गतिविधि-आधारित शिक्षण पद्धतियों को प्रमुखता दी। छात्रों को कक्षा-कक्ष से बाहर खुले मैदान में, पेड़ के नीचे, खेल-खेल में सीखना आदि | छात्रों ने न केवल पाठ्यक्रम के अंतर्गत शिक्षण प्राप्त किया, बल्कि विविध विषय समृद्धि गतिविधियों जैसे परियोजना कार्य, कविता लेखन, वाद-विवाद, और कहानी लेखन में भी भाग लिया। पठन और मौखिक अभिव्यक्ति कौशल कौशलों के विकास और सुधार हेतु छात्र और छात्राओं को कक्षा के सम्मुख नियमित रूप पढ़ने और बोलने का अवसर प्रदान किया गया | इसके अतिरिक्त, हमने शैक्षिक समृद्धि गतिविधियों का आयोजन किया, जिसमें छात्रों ने हिंदी साहित्य के महान लेखकों और कवियों से जुड़ी जानकारी प्राप्त की। एक विशेष प्रार्थना-सभा का आयोजन भी किया गया, जिसमें छात्रों ने हिंदी संस्कृति और सभ्यता के महत्त्व को अनुभव किया। इन गतिविधियों ने न केवल छात्रों के ज्ञान में वृद्धि की, बल्कि उनकी रचनात्मकता और आत्मविश्वास को भी बढ़ाया। मैं इस बात को लेकर उत्साहित हूं कि हमारे छात्रों ने हिंदी भाषा को समझने और सम्मानित करने का एक नया दृष्टिकोण अपनाया है, और यह हमें भविष्य में और अधिक ऊँचाइयों तक ले जाएगा।

डॉ. अजीत कुमार चौहान
हिंदी विभागाध्यक्ष

EQUATIONS, EXPLORATIONS, AND ENDLESS POSSIBILITIES

Mathematics is not just about numbers and formulas—it is a way of thinking, reasoning, and solving real-world problems. At our school, we believe in making mathematics an engaging and accessible subject for all students, ensuring that every learner finds their own path to understanding and mastery.

To achieve this, we emphasize an open-door text worksheet approach, which helps students develop a deeper understanding of logical questions and problem-solving techniques. Our carefully designed worksheets cater to all grades from 1 to 12, ensuring that students progress through structured learning. Special attention is given to Grades 10 and 12, where we provide differentiated worksheets to meet the needs of diverse learners—from slow learners who require extra support to average learners and top achievers who need higher-order thinking challenges (LOTS to HOTS).

Learning mathematics is not limited to textbooks; we encourage active participation through math activities based on real-time examples, making abstract concepts more tangible and relatable. Additionally, we integrate online math games on Math Day, fostering a fun and interactive environment that enhances students' computational skills.

Most importantly, we understand that every student learns at their own pace. Our approach ensures that slow learners receive special care, helping them build confidence and a strong foundation in mathematics. Through continuous support, engaging activities, and innovative teaching methodologies, we aim to make mathematics a subject of curiosity, exploration, and success for every learner.

We hope this we will serve as a valuable resource, guiding students to develop problem-solving skills, logical reasoning, and a lifelong appreciation for the beauty of mathematics.

Nature's Blueprint:

The Science of Life

Biology is the foundation of life sciences, helping us understand the mechanisms that sustain living organisms and ecosystems. It plays a vital role in addressing global challenges like disease prevention, environmental conservation, food security, and sustainable resource management. With advancements in biotechnology, genetics, and medical research, biology continues to drive innovation in healthcare, pharmaceuticals, and agriculture, shaping a sustainable future. From primary to higher grades, students engage in hands-on learning that nurtures curiosity while developing a holistic understanding of living organisms, ecosystems, genetics, and health sciences. As they advance, the curriculum expands to specialized fields such as human biology, anatomy, physiology, biochemistry, pharmaceutical sciences, sustainable agriculture, and ecosystem conservation. By integrating sustainability principles, we prepare them to address real-world challenges in healthcare, food production, and environmental protection.

Beyond academics, our goal is to equip students for careers in healthcare, biotechnology, pharmaceuticals, environmental science, agricultural research, and paramedical sciences. Through laboratory experiments, field visits, and real-world applications, students gain both theoretical knowledge and practical skills, ensuring they are prepared for the evolving scientific landscape. By incorporating advanced scientific tools and technologies, we empower students to excel in biological research, medical sciences, pharmacy, and allied health fields. Our vision is to inspire the next generation of scientists, healthcare professionals, and environmentalists who will drive progress in medicine, sustainability, and life sciences.

Beyond the Bell

INKED BY OUR TEACHERS

Laconic Lines

You have grown.
Now I see you often all alone.
Your laughs have grown quieter,
And your smiles grow tighter.

Wake up, dear one,
You needn't atone
For mistakes that weren't yours,
Or for a lie that went around outdoors.

You may not believe me now,
Or ask me – I know this how.
All I can tell you, dear,
I was like you in a past year.

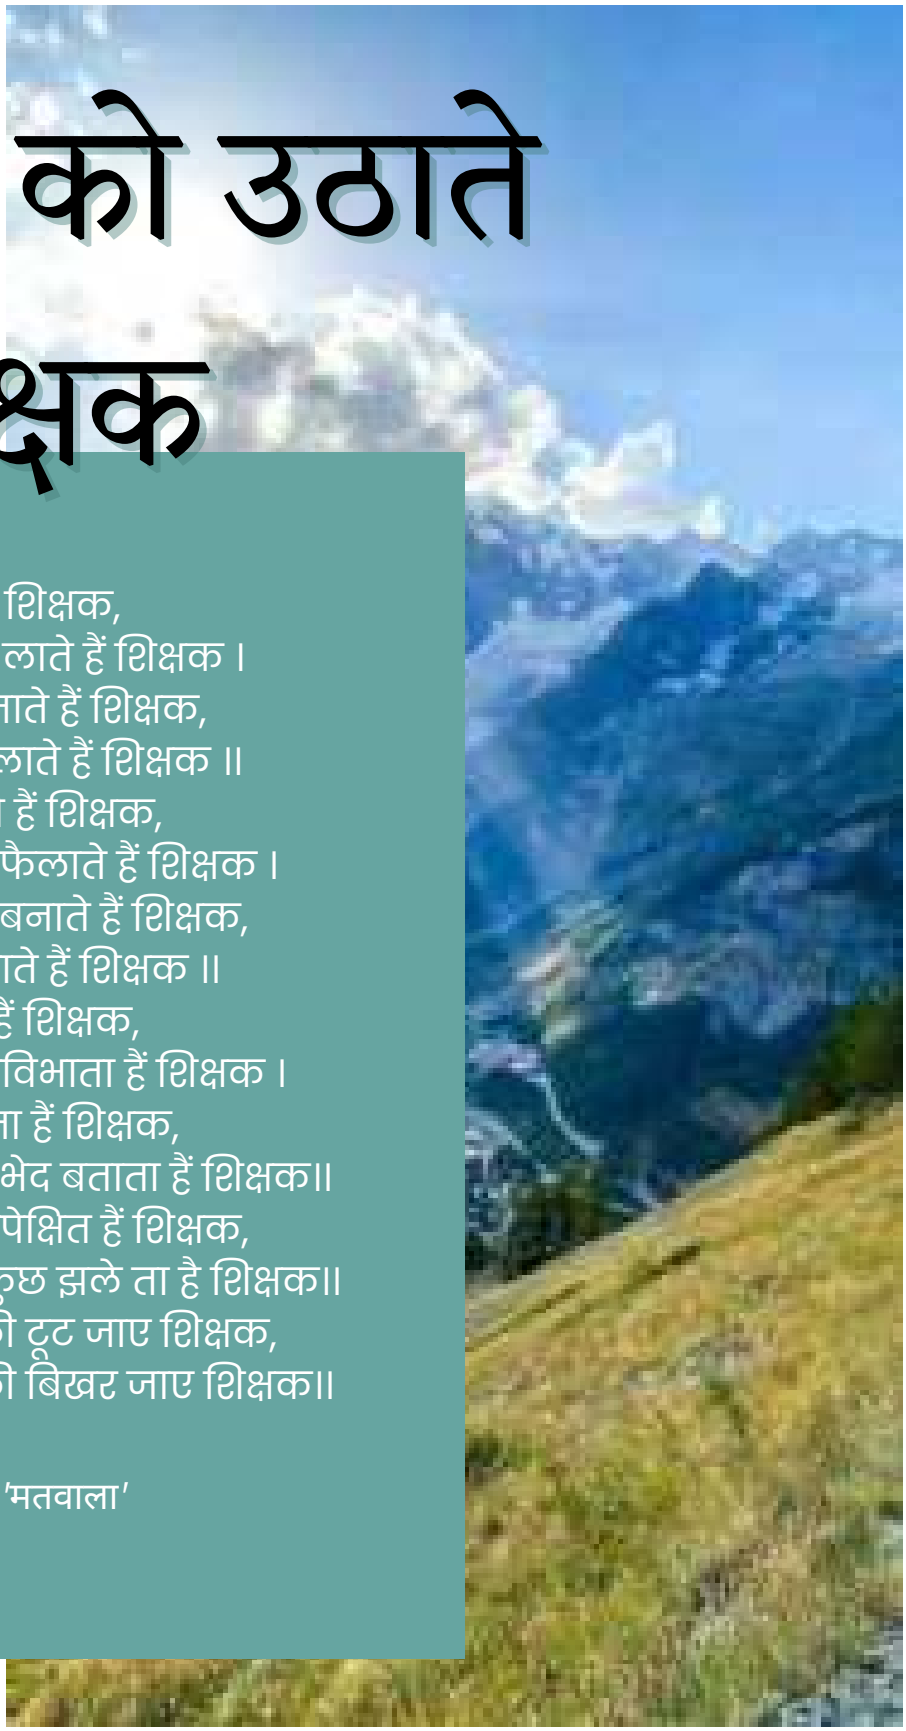

I never felt worthwhile,
Not for a day, not for a long while.
A friend, a kin, neither a parent nor a preacher
Could make me see me – but for a teacher.

Hence, I attempt and will keep doing so,
Until I see you smile, letting it go,
Until I see you laughing louder,
And your stride growing lighter.

गिरते को उठाते है शिक्षक

गिरते को उठाते हैं शिक्षक,
भटके को राह पर लाते हैं शिक्षक ।
निम्न को उच्च बनाते हैं शिक्षक,
अधँरे में दीपक जलाते हैं शिक्षक ॥
बदबू को दूर करते हैं शिक्षक,
खुशबू चारों तरफ फैलाते हैं शिक्षक ।
अज्ञानी को ज्ञानी बनाते हैं शिक्षक,
दुष्ट को शिष्ट बनाते हैं शिक्षक ॥
राष्ट्र का निर्माता हैं शिक्षक,
शिक्षार्थी का भाग्यविभाता हैं शिक्षक ।
बदं दरवाजे खोलता हैं शिक्षक,
मानव-दानव का भेद बताता हैं शिक्षक॥
पर न जाने क्यों उपेक्षित हैं शिक्षक,
मूक हो कर सब कुछ झले ता है शिक्षक॥
इतना मत करो की टूट जाए शिक्षक,
इतना मत करो की बिखर जाए शिक्षक॥

TRANQUILITY OF NATURE

When all is said and done,
It's an hour of dispersal.

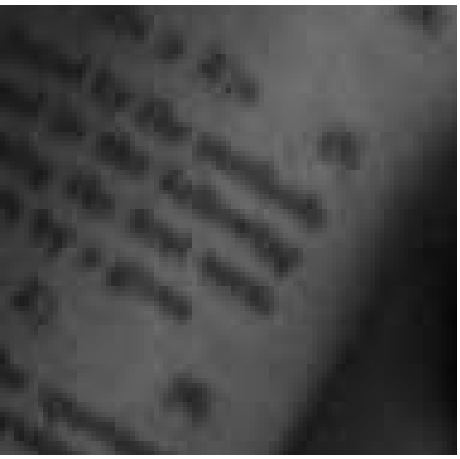

A fervor to board the conveyance, Reckoning to end up in our nest.

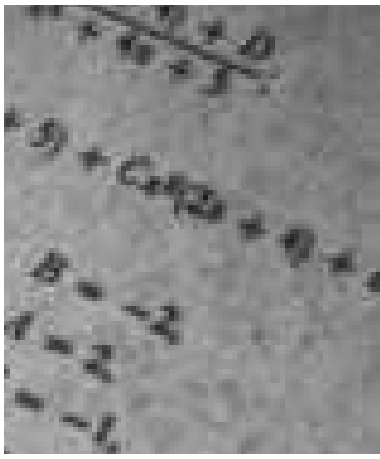

There is no place like home,
Home is where the heart is.

Intricate to render gay, A thought provoked to articulate.

When all is said and done,
You encounter a balmy and tranquil air.

By Monica Mary Philip

WHY I CHOSE TO TEACH?

I still remember the moment in 8th grade when my mathematics teacher handed me a book and said, "I think you'll love this"(Arithmetic and Its Applications). It was a grand gesture, but for me, it was life-changing. That simple belief sparked something in me—a passion for learning that I hadn't fully realized until that point. It was a turning point, one of those experiences that stick with you and shape the course of your life.

For a long time, my career was in software. I spent my days coding, solving technical problems, and working on projects that eventually made their way into the digital world. On the surface, it seemed like a perfect fit. I was good at it, and it provided me stability in life. However, deep down, I began to feel like something was missing. I found myself yearning for a deeper connection with people and the desire to engage in something that felt more meaningful.

I often recall my school days, remembering how teachers guided me through challenges, celebrated my successes, and inspired me to think beyond the classroom. It was during that time that I asked myself, "What if I could do that for someone else? What if I could be the person who sparks that 'wow' moment in a student's life?" That question lingered with me and eventually led to an unexpected decision: "I would leave behind the realm of software and pursue a career in teaching."

Making that transition wasn't easy for me. The world of education felt vastly different from the tech-driven environment I was accustomed to. I had to adapt to new challenges, expectations, and a completely different way of working. At times, I questioned whether I was suited for this role. Doubts crept in, particularly during those first few weeks of teaching when I was still finding my rhythm. But as time passed, witnessing a student grasp something new or a quiet student speak up reminded me why I made the change.

"One of the things I love about teaching is the opportunity to be part of students' journeys. It's not just about imparting facts or preparing them for tests. It's about helping them discover their potential, building their confidence, and being a source of encouragement when they encounter setbacks"

I've learned that teaching is less about delivering lessons and more about creating an environment where students feel safe to ask questions, make mistakes, and grow. There's a genuine magic in watching a student's eyes light up when they finally "get it," or when they share a thought or idea they've been hesitant to express.

In many ways, teaching has taught me as much as I've taught my students. Every day in the classroom presents a chance to learn something new—not just about my students, but also about myself. It's a reminder that the learning process is never one-sided. It's a two-way street, where I'm constantly evolving and discovering new ways to engage, inspire, and connect with my students.

Looking ahead, I'm excited to continue this journey. I hope to inspire my students to be curious, to push past their limits, and to always believe in themselves. Teaching is more than just a career for me; it's a calling. It's an opportunity to make a difference, one lesson at a time, and I'm deeply grateful for every moment I have in the classroom.

मेरी माँ

कभी प्यार करती,
कभी दुलार करती,
कभी लोरी सुनाती,
हर वक्त मेरा हौसला बढ़ाती मेरी माँ।

कभी समझाती,
कभी आँख दिखाती,
कभी फटकारती,
मेरी गलतियों से मुझको सिखलाती मेरी माँ।

कभी मेरे रूठने पर मनाती,
कभी मुझे चोट लगने पर रोती,
कभी मेरे दुख में दुखी हो जाती,
मेरी खुशी में अपनी खुशी ढूंढ लेती मेरी माँ।

कभी मेरे छुपने से सहम जाती,
कभी मेरे मिलने पर फूला न समाती,
कभी मेरे लिए खुद से मुझे दूर करती,
मेरे दूर जाने पर मेरी खुशी के लिए आंसुओं को
छुपाती मेरी माँ ।

कभी गर्म हवाओं से बचाती,
कभी बारिश में अपने आंचल में छुपाती,
कभी सर्द रातों में गर्मी का एहसास कराती हर
मौसम से लड़ती मेरी माँ ।
कभी मेरे सोने के बाद सोती,
कभी मेरे उठने से पहले उठ जाती,
कभी मेरे मांगने से पहले मेरी जरूरत को पूरा करती
मेरी माँ।

कभी गर्म हवाओं से बचाती,
कभी बारिश में अपने आंचल में छुपाती
कभी सर्द रातों में गर्मी का एहसास कराती,
हर मौसम से लड़ती मेरी माँ

OUR DEMO-*CRAZY*

The common man or as he is being fondly referred to as the "aam admi" (aam – mango a seasonal fruit) has forgotten that he lives in a Democracy. In our hectic corporate lifestyles we are hardly bothered about which party would come to power or what the political scenario in our country is. Our political conscience comes on knocking, only on the day when we need to cast our vote, or else all is forgotten. Our own selfish motives seem to replace our collective responsibilities.

It bothers me when I see the sad state of affairs. The younger generation really don't seem to attach any importance whatsoever to the politics. They don't seem perturbed. I keep coming across people who make casual statements about how the country's political agenda doesn't bother them and their callousness astonishes me. Have I somewhere along the line failed as a teacher to instill in the students a sense of pride for their nation or has their so called Democratic Nation failed them?

I think its high time we all brace ourselves and march towards what is rightfully ours – a Democracy we are entitles to and what we got through the struggle of our fore fathers. It is our moral responsibility that we honour their sacrifice and ensure that it doesn't go waste.

The entire definition of Democracy has acquired a new spin and it can be stated as follows by the new generation:

- ***"Demo – crazy"***
- ***" Governement buy the people, far the people and off the people***

Back in the good old days, we were taught in school the meaning of Democracy i.e a Government by the people, for the people and of the people. I never really understood the meaning of Democracy during my school days. It didn't make much sense to me because no one I knew was never a part of the Government. But I do remember the distinct feeling of overwhelming pride whenever I would watch the President or the Prime Minister delivering speeches on Republic Day or Independence Day, though I was never really in front of them during their speeches.

There was this feeling deep down in my heart that they were addressing me and not the entire nation. I' am overcome with a sudden pang of nostalgia when I recall my teacher's quizzing the students about the names of the cabinet minister's and their portfolios. Now in this theatrical setup of Democracy and a Government filled with politicians lusting after power and marred with scandals it's become quite difficult to remember who is holding which post .which party and so on.

I am ready for this, *are you*?

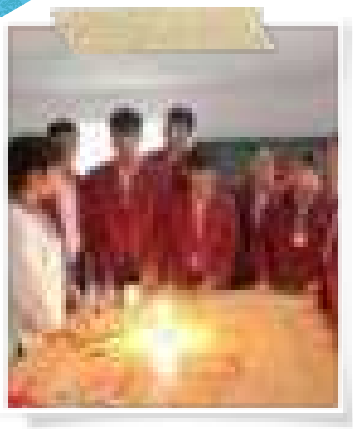

Rani Dhulipala
Social Science Faculty

ECHOS

OF THE YEAR

MULTI-SKILL LAB

The newly inaugurated Multiskill Lab became a hub of hands-on learning and exploration. Designed to encourage cross-disciplinary skills, it offered our students a space to learn by doing —through robotics, crafts, logic games, and more.

SCIENTIGALA '24-25

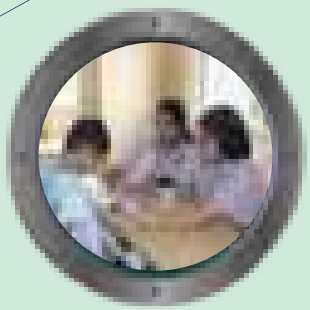

At ScientiaGala, scientific minds took center stage. Our students amazed us with their inventive models, thoughtful experiments, and confident presentations. It was a celebration of inquiry, innovation, and the magic of science in everyday life.

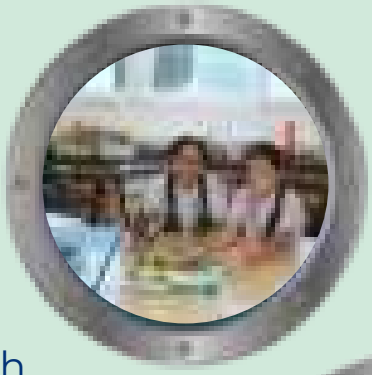

MAKERSPACE

WHAT ARE LITTLE CREATORS WERE UP TO IN 2024

Our Makerspace buzzed with innovation and imagination all year long. Here, students tinkered, built, coded, and collaborated—transforming ideas into reality. It's where creativity met curiosity and every child became an inventor.

Investiture.

Ceremony

2024-25

A proud tradition that marks the beginning of student leadership, the Investiture Ceremony was a dignified affair where our young leaders donned their sashes and pledged their commitment to uphold the values of the school. The ceremony radiated pride, responsibility, and a promise for the future.

SANKRANTI 2025

Sankranti at school was a vibrant celebration of harvest and gratitude. With kites soaring high, traditional attire, and cultural performances, the day brought alive the essence of rural India. Students learned the significance of the festival while partaking in joyful, community-based activities.

Pongal at Vista

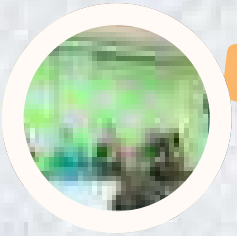

Pongal was marked with warmth and tradition, honouring the Tamil harvest festival with great enthusiasm. Students participated in decorative kolam-making, shared in the story of Pongal's origins, and witnessed the symbolic cooking of the sweet dish that gives the festival its name.

CHILDREN'S DAY

A day dedicated entirely to our students, Children's Day was a vibrant celebration of childhood. With games, performances, surprises, and lots of love from the teachers, the day was packed with delight and unforgettable memories.

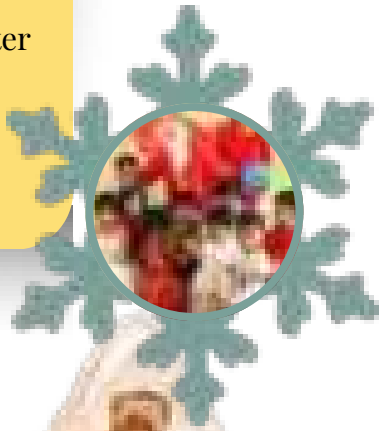

VISTA INTERNATIONAL SCHOOL

Christmas 2024

The spirit of giving and togetherness lit up our school during Christmas. Carol singing, beautifully decorated trees, and heartwarming performances turned the campus into a winter wonderland filled with joy, laughter, and festive cheer.

Buddy Day

Buddy Day was all about cherishing the bond between parents and children. Designed as a joyful pause from the everyday rush, the event gave parents a chance to unwind, play, and reconnect with their little ones through games, art, and shared laughter. It was a heartwarming reminder that the best moments are the ones spent together.

2024

INDEPENDENCE DAY

With flag hoisting, patriotic songs, and stirring speeches, Independence Day stirred national pride in every heart. Students honoured India's journey with thought-provoking performances that paid tribute to the spirit of freedom.

teachers Day

Teachers' Day was a beautiful tribute to the mentors who shape young minds. Students expressed their appreciation through performances, speeches, and handwritten notes, turning the day into a heartfelt celebration of gratitude and respect.

HUNGAMA

A day of pure fun and frolic, Hungama brought together games, food, laughter, and community spirit. Students, parents, and teachers came together to enjoy a vibrant fair full of music, colour, and unforgettable moments.

CLUB CLOSURES

As the year drew to a close, our clubs wrapped up their journeys with reflections, showcases, and quiet pride. From debates to drama, coding to cooking, students celebrated the skills they'd nurtured and the friendships they'd formed.

REPUBLIC DAY

JANUARY 2024

Republic Day celebrations were marked by dignity and pride. Students showcased India's rich cultural diversity through dances, skits, and a celebration of the values enshrined in our Constitution.

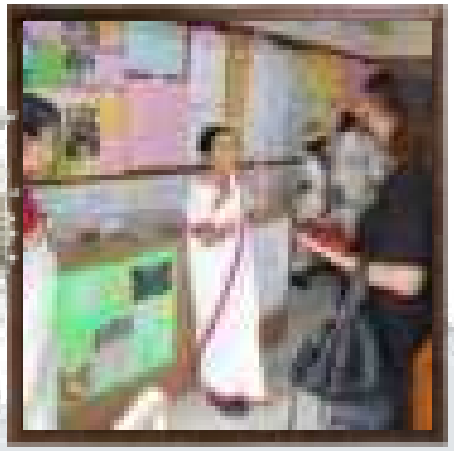

Art Expo

#moments

Our Art Expo transformed the school into a gallery of colour and imagination. Students of all ages proudly displayed their artwork, from delicate sketches to bold installations, proving that creativity has no age and no limits.

VISTA | INTERNATIONAL SCHOOL

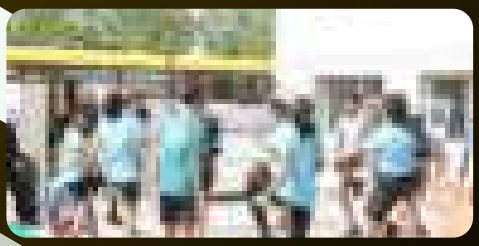

ANNUAL DAY 2024

VISTA INTERNATIONAL SCHOOL

A GRAND CELEBRATION OF TALENT AND TEAMWORK, ANNUAL DAY SHOWCASED THE CREATIVITY AND CONFIDENCE OF OUR STUDENTS THROUGH MESMERIZING PERFORMANCES. FROM SWASHBUCKLING SCENES IN PIRATES OF THE CARIBBEAN TO GRACEFUL CLASSICAL DANCES AND SOULFUL MUSIC, IT WAS AN EVENING THAT LEFT US AWESTRUCK AND PROUD.

VISTARENA 2024

With fierce determination and team spirit on full display, the seniors lit up the field with impressive athleticism. Track events, relays, and inter-house competitions brought out the best in every participant, proving that sportsmanship truly builds character.

ALL SPORTS, ALL ACTION

ANNUAL SPORTS DAY

Grades 1-5

The Primary School Sports Day was a vibrant mix of cheers, colourful uniforms, and budding athletic talent. Events were designed to encourage healthy competition and joy in participation, nurturing a love for fitness and teamwork.

PRE- PRIMARY ANNUAL SPORTS DAY

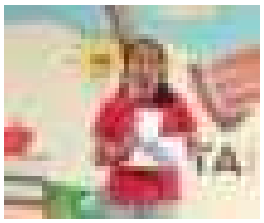

Tiny feet and bright smiles filled the field as our youngest students took part in playful races and fun games. The Pre-Primary Sports Day was a delightful celebration of movement, joy, and boundless energy.

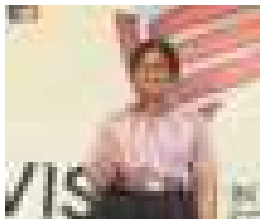

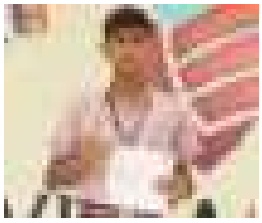

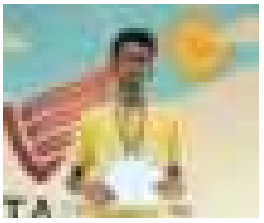

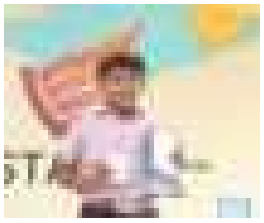

STELLAR SPOTLIGHT

2024-25

April 2024

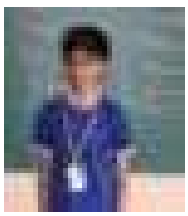

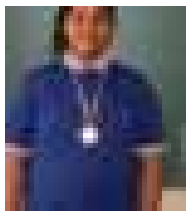

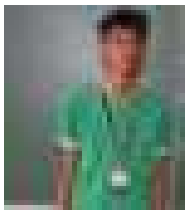

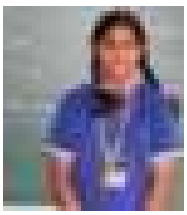

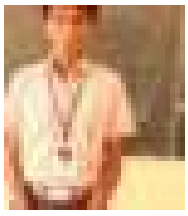

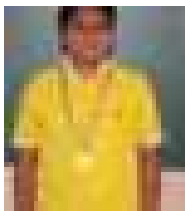

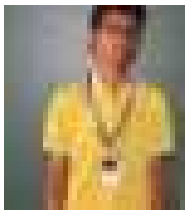

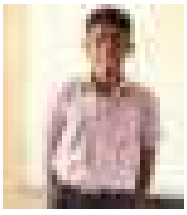

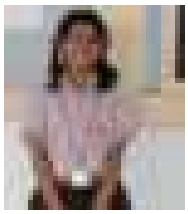

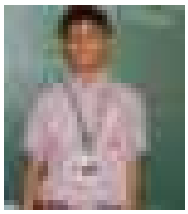

MI Champs
Level II Winners

Our brilliant young minds proved their mettle once again at the MI Champs Level II competition, showcasing exceptional logical thinking, problem-solving skills, and academic prowess. Their hard-earned victory is a proud testament to their dedication and the spirit of excellence that drives them.

Gold Medalists
Vistaians sprove themselves yet again

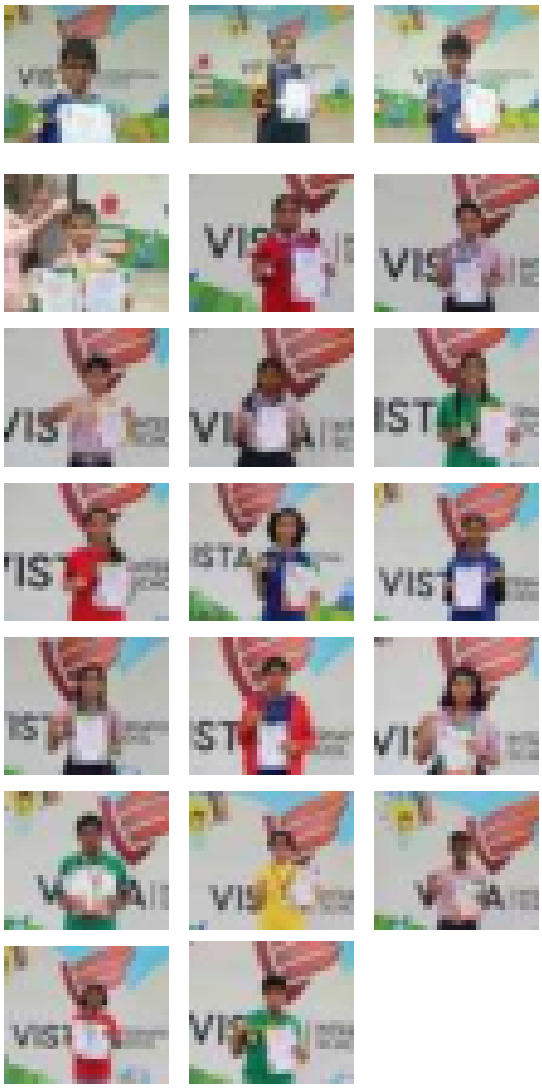

Shining bright with knowledge and determination, our students brought home gold medals at the Science Olympiad Foundation (SOF) exams. Their outstanding performance across subjects like Science, Math, and English reflects not just academic excellence, but a deep love for learning and a spirit of healthy competition.

June 2024

Vista International Shines at NELTAS

NELTAS, with over 12 years of legacy, emphasizes skills over grades, offering an international platform and expert-developed curriculum. Vista International School students excelled in NELTAS, earning numerous accolades.

Vista International School Recognized Among India's Best by Careers 360

Vista International School is proud to announce its recognition as one of the best schools in India by Careers 360. This prestigious accolade highlights our commitment to excellence in education, innovative teaching methods, and holistic student development. We are dedicated to nurturing young minds and preparing them for a bright future, and this recognition serves as a testament to our efforts.

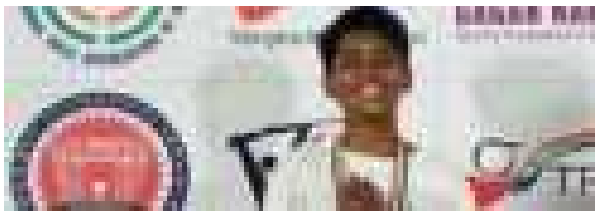

Triumph at Khelo India: Sangam Trishala Wins Taekwondo Gold

In an outstanding display of skill and determination, Sangam Trishala clinched the gold medal in taekwondo at the prestigious Khelo India event. Representing our school with exceptional prowess, Sangam's victory not only brings honor to our institution but also inspires fellow students to pursue excellence in sports. Congratulations to our champion!

Swithin Swaroop Secures Bronze in State Shooting Championship, Advances to Nationals!

Our sharpshooter Swithin Swaroop of 9A has made us proud, securing a bronze medal in the 10th Telangana State Level Shooting Championship. Next step is Nationals as he has made the cut!

July 2024

Spotlight on Success: Our Shriutsav Award Winners

We are thrilled to honor our talented students who excelled at the Shriutsav Inter-School Competition held at TSUS. Congratulations to Chyan Ritvik from 2B for securing 2nd prize in Storytelling, Sadhvi from 4C for earning 2nd prize in the Global Challenges writing category, and Aparajita from 8F for her impressive 2nd prize in the Monologue competition. Their outstanding achievements showcase their dedication and skill, and we are proud of their remarkable performances!

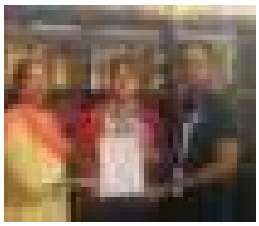

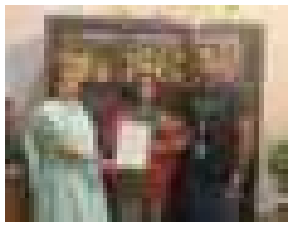

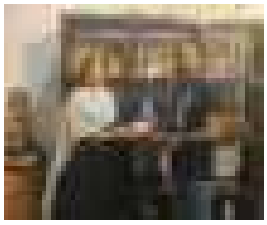

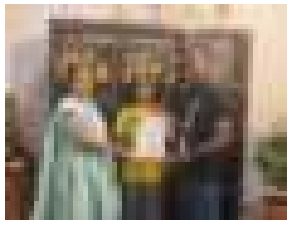

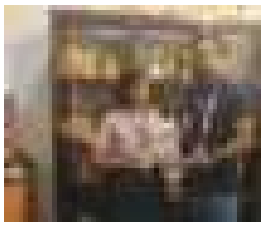

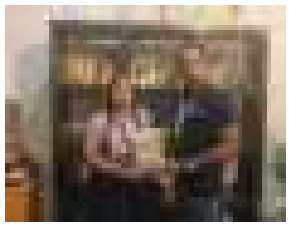

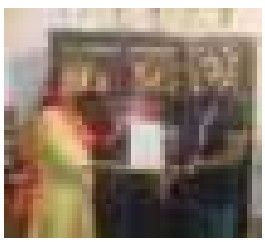

Ace Achievement: Yakshaveer's Second Place at Goldslam Junior Tennis Tournament

Congratulations to Yakshaveer for his stellar performance at the Goldslam Sports Junior Tennis Tournament, where he secured 2nd place in the Under-10 Boys category. His dedication and skill on the court were evident as he competed against top young talents. We celebrate his remarkable achievement and look forward to his continued success in future tournaments!

August 2024

Top Honors in Tata Essay Writing Competition: Senior Category

Kudos to our talented writers! In the Senior Category of the Tata Essay Writing Competition, Gunakkshi Garg took home the top prize, with Arshika Jain earning 1st runner-up and Samriddhi Dash securing 2nd runner-up. In the Junior Category, Md Aadil Raza (8C) bagged the first prize, Naman Tiwari (8E) who came in at a close second, and Somireddy Sahasra (7B) who was the second runner-up. Their exceptional writing skills have truly shone, earning them well-deserved recognition and accolades!

Celebrating Vista's Champions at Chirec International

Vista International School has once again proven its excellence by tying with Chirec International School for the coveted school trophy at the recent inter-school competition. We couldn't be prouder of their achievements. Vistaians have yet again made us proud and proved their mettle.

August 2024

Vista Shines at Kairos Art Fest

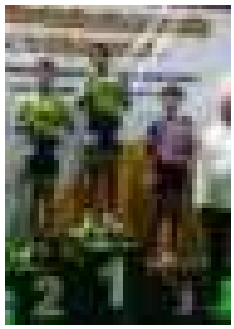

Congratulations to Anisha Addenki for winning first prize in Mixed Media Abstract Painting and to Riddhima Mohanty for securing third prize in Modern Art at the Kairos Art Fest! Your artistic talent and creativity have brought glory to our school.

Sudarshan Shines:
First Place in Telangana Tri-District Skating Competition

Kudos to Sudarshan for winning the first prize in skating at the inaugural Telangana Tri-District Competition! His dedication and skill have brought pride to our school, marking a remarkable achievement in this prestigious event.

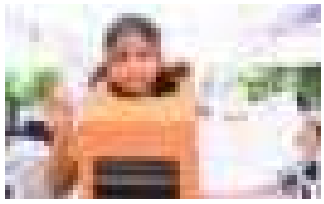

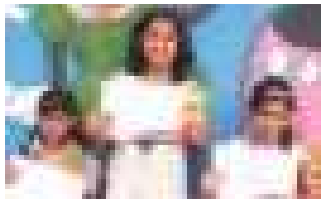

Aarush Tripathi Shines at IIT Hyderabad's Future Inventor Fair

A big shoutout to Aarush Tripathi, who was selected to showcase his amazing model at the Future Inventor Fair organized by IIT Hyderabad! His creativity and out-of-the-box thinking have earned him this exciting opportunity to present his ideas on a big stage.

Vista Stars Shine at Premia Fancy Dress Competition

Our young achievers dazzled at the Premia Fancy Dress Competition with their outstanding and creative outfits! Their imaginative costumes and confident presentations made a lasting impression, earning them well-deserved recognition and accolades.

September 2024

Cfore School Excellence Award: Recognized Among India's Best Co-Ed Schools

We are thrilled to announce that our school has been honored with the prestigious Cfore School Excellence Award, securing the title of "India's Best Day Co-Ed Schools." Our school ranked 56th in India, 12th in Telangana, and proudly placed 10th in Hyderabad. This recognition reflects our unwavering commitment to providing top-tier education and fostering a nurturing environment for our students. It is a testament to the collective efforts of our dedicated staff, students, and community, who continuously strive for excellence.

Principal of the Year 2024:
Honoring Leadership at EduLeaders Summit

We are proud to announce that our esteemed Principal Ma'am has been awarded Principal of the Year 2024 at the prestigious EduLeaders Summit and Awards! This recognition reflects her visionary leadership, dedication to educational excellence, and unwavering commitment to fostering a thriving learning environment. Her passion for guiding both students and staff continues to inspire our entire school community.

Dynamic School 2024: Celebrating Our Commitment to Innovation

We are excited to share that our school has been honored with the Dynamic School 2024 award by E News Network and Education Today! This accolade recognizes our innovative approaches to education, commitment to fostering a vibrant learning environment, and dedication to continuous improvement. It is a testament to the hard work and creativity of our staff and students, who together make our school a dynamic place for learning and growth.

Cricket Stars Shine: Zonal-Level Selections Success!

We are excited to share that our exceptional cricket players have achieved remarkable success in the Zonal-Level Selections held by the School Game Federation of India! Their relentless effort, commitment, and teamwork have truly paid off, and we are immensely proud of their accomplishments. These young athletes exemplify the spirit of determination and sportsmanship!

October 2024

Celebrating Excellence: Top Rankings and Technology Integration Awards

We are immensely proud to announce that our school has been recognized among the Top International Day Schools, achieving an impressive ranking of #4 in Telangana and #4 in Hyderabad! This accomplishment reflects our commitment to providing quality education and nurturing our students' potential. Additionally, we have been honored with the Best in Technology Integration award by Education World, securing the #1 position in both Telangana and Hyderabad, and ranking #6 in India. These remarkable achievements in modern education underscore our dedication to innovation and excellence, setting a benchmark for the future. Thank you to our dedicated staff, students, and parents for being a part of this incredible journey!

Rolling to Success: Lakshith and Lavith Make National Roller Skating Hockey Team

Congratulations to Lakshith and Lavith, who have both been selected for the prestigious National Roller Skating Hockey Team! This remarkable achievement highlights their dedication, hard work, and exceptional skills in the sport. As they embark on this exciting journey representing our country, we celebrate their commitment to excellence and wish them the best of luck in their upcoming competitions. Their success inspires fellow students to pursue their passions and reach for their goals!

Artistic Triumph: Celebrating Success at the 5th State-Level Drawing Competition

Our school truly shined at the 5th State-Level Drawing Competition, earning the prestigious Best Participant School award! A heartfelt congratulations goes out to Aditri from Grade 2, who claimed the State 1st position in her category with her incredible artwork. Additionally, we celebrate Arshika from Grade 5 for her impressive consolation prize, showcasing her creativity and talent. This year's competition was a testament to the artistic spirit flourishing within our school community, highlighting the hard work and dedication of our young artists. We couldn't be prouder of their achievements!

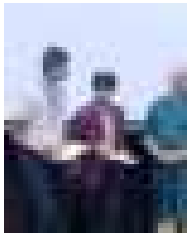

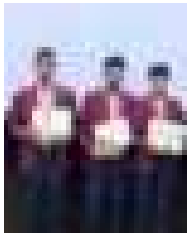

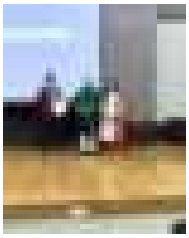

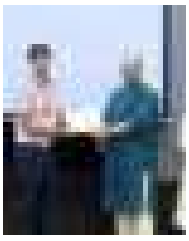

October 2024

Vista International Shines at Vignotsav 2024: Celebrating Our Young Scientists!

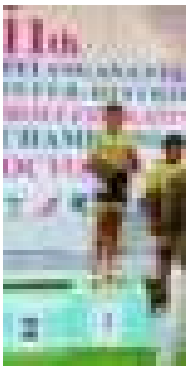

Our senior high school students have made us proud at the Junior Science Club Vignotsav 2024, bringing home several prestigious awards! The team secured the Rosalind Franklin (Seniors) award, showcasing their dedication to scientific excellence. Individually, Shivansh claimed the 3rd prize in Elocution, while Sanjyit showcased his debating skills with another 3rd prize win. In the Quiz competition, Eshwar and Ramith earned an impressive 2nd place, and Rasool, Nanda Naik, and Roheth triumphed with a fantastic 1st prize finish! These achievements reflect the hard work, talent, and passion of our students in the fields of science and communication.

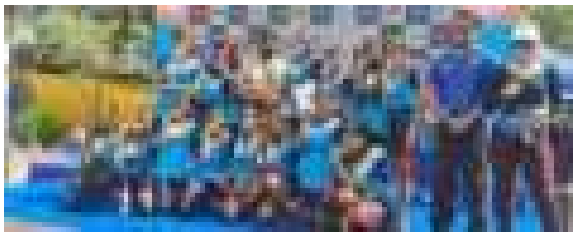

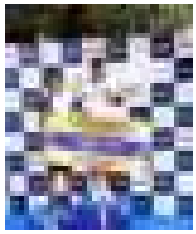

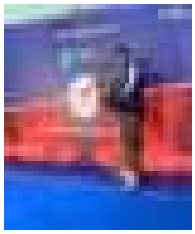

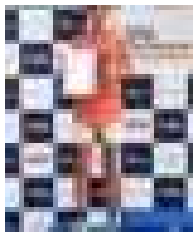

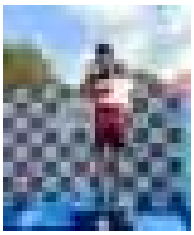

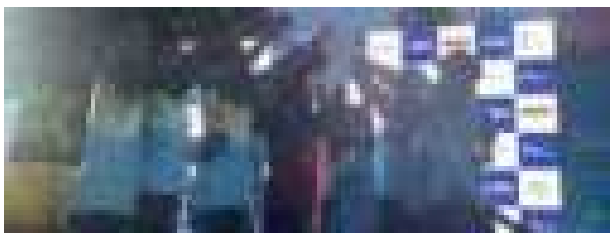

Skating to Victory: Gold Medal Glory!

A huge congratulations to our star skater for clinching the gold at the State Level Skating Tournament! With an impressive display of skill and determination, they've earned a spot at the National Championship. We're cheering them on as they roll towards even greater achievements!

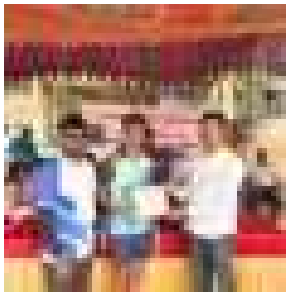

SFA Champions: Celebrating Our Young Athletes' Stellar Achievements

Our athletes brought home a trophy of triumph from the SFA Championship! The girls' Kho Kho team shone brightly, clinching the gold medal with their remarkable teamwork and determination.

November 2024

Vista Students Shine at School Games Foundation Event

Our talented athletes made us proud at the recent event held by the School Games Foundation in Rangareddy! Apurva leaped to a silver medal in high jump, while Manavitha soared to a gold medal victory. Rajveer claimed a bronze in high jump, and Abhijyth brought home both a gold in 100m and a bronze in long jump! These remarkable achievements are a true reflection of their dedication, hard work, and sportsmanship. We celebrate their victories and look forward to even greater accomplishments in the future!

Vista Honored with ELDROK India K-12 Award for Excellence

A proud moment for our community! Vista International School was awarded the prestigious ELDROK India K-12 Award for Excellence in Sustainable and Holistic Growth Programs. This recognition highlights our unwavering commitment to fostering ecological responsibility and all-around development in our students. Together, we continue to create a better, brighter future!

Vista Wins Best School Award in Rangareddy District

We are overjoyed to announce that Vista International School has been honored with the Best School Award in Rangareddy District at the Star Education Award 2024! This prestigious recognition, organized by ESFE in collaboration with the Education Department, celebrates our commitment to excellence in education, innovation, and holistic development. A heartfelt thank you to our students, staff, and community for making this achievement possible!

December 2024

Proud Moments: School Awards and Achievements

It was a proud moment for our school as we were recognized among the top 10 CBSE schools in Hyderabad. Additionally, receiving a special mention for excellence in educational practices by The Times of India affirmed our commitment to holistic education. These achievements are a testament to the hard work, dedication, and excellence of our students, staff, and supportive parents.

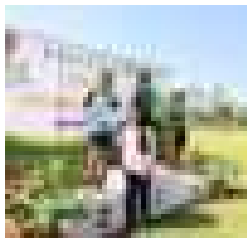

January 2025

Running Towards Glory: Vista Excels in Athletics!

Vista International School's athletes delivered a stellar performance at the Indus International School Eagles Cup, competing against top schools and bringing home an impressive 23 medals in the 100m, 200m, long jump, and relay races. The Girls' team secured the Overall Championship 2nd Runner-Up, while the Boys' team emerged as Runner-Up, showcasing their dedication and sportsmanship. Their hard work, discipline, and team spirit led to this remarkable achievement, making us incredibly proud. Congratulations to our champions for setting new benchmarks in excellence!

February 2025

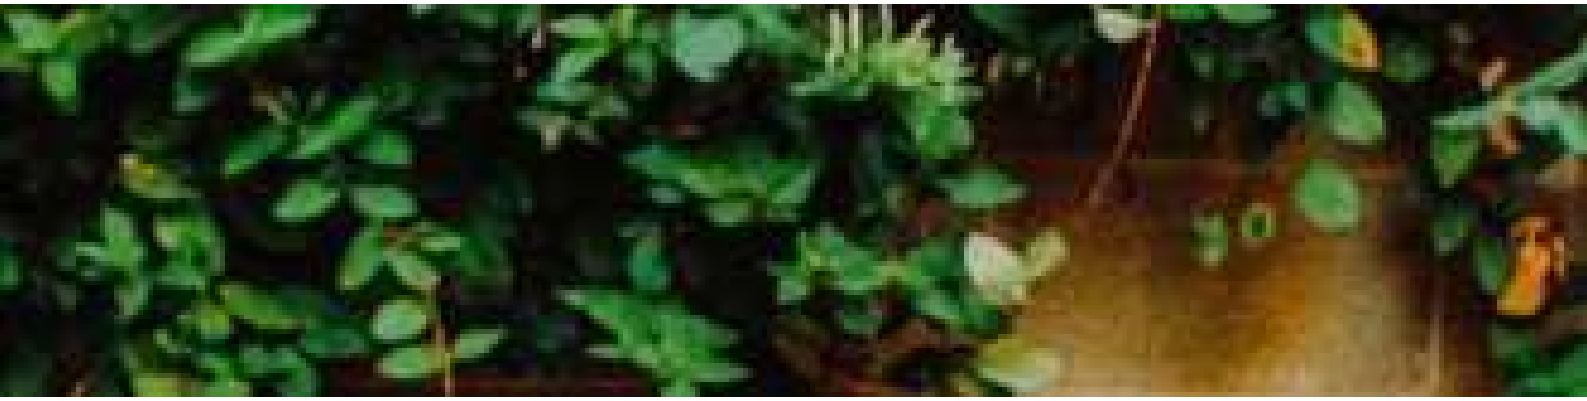

A Leader Who Inspires:
Principal Mary Shanti Priya Honored!

We are delighted to share that our Principal, Mary Shanti Priya, has been recognized with the prestigious Brainfeed Exemplary Women Award. This honor highlights her dedication to academic excellence, leadership, and her invaluable contributions to shaping young minds. Her commitment to fostering a nurturing learning environment is truly commendable. We take immense pride in this well-deserved achievement.

A vibrant showcase of creativity where words dance and colors speak.

THE SUBJECT STRUGGLE

Math stares at me, “Go find X!”
“It’s better you move on to what's next.”
But letters and numbers blur and blend,
A puzzle unending, with no end.

Social Studies? I’ve had enough!
Empires rise and fall, it's all just fluff!
“Akbar and viceroys, what's their role in daily life?”
In this choas,I struggle and strive.

Hindi’s grammar slithers, oh so mean,
“I can't,” I mutter, feeling unseen.
Yet verbs and rules twist and turn,
In every mistake, there’s more to learn.

Science, my rival, here we go,
“If Newton sat by a coconut tree, life would flow!”
With laws and theories hard to trust,
In a swirl of atoms, I adjust.

English taunts me with words galore,
Rules that shift and meanings explore.
Silent letters and grammar’s tricks,
A maze of language, hard to fix.

Subjects piling up, oh what a sight,
The struggle gives me fright.
But I’ll stand tall, “Bring it on!” I’ll say,
With laughs and struggles, I’ll find my way.

After exams, we’ll bask in the glow,
Before the results, we’ll let worries go.
Together we’ll conquer, mile after mile,
Facing it all with laughter and style!

SELFLESS ONES

Hrieshita Vashishth XII A

Anshi B.
7-B

Once when our world was new,
there were ones who'd give
anything for you.
They, the selfless ones, would
strive
and aid to keep humanity alive.

But as time passes,
we who were once selfless
now turn away, nor offer a
glance.

Now we sit holed up in our
shelves
working to grow, to prosper
yet slipping in civility, cutting
our roots.

We're taking the world further,
But to what aim? Where?

Aditya Anand
9-C

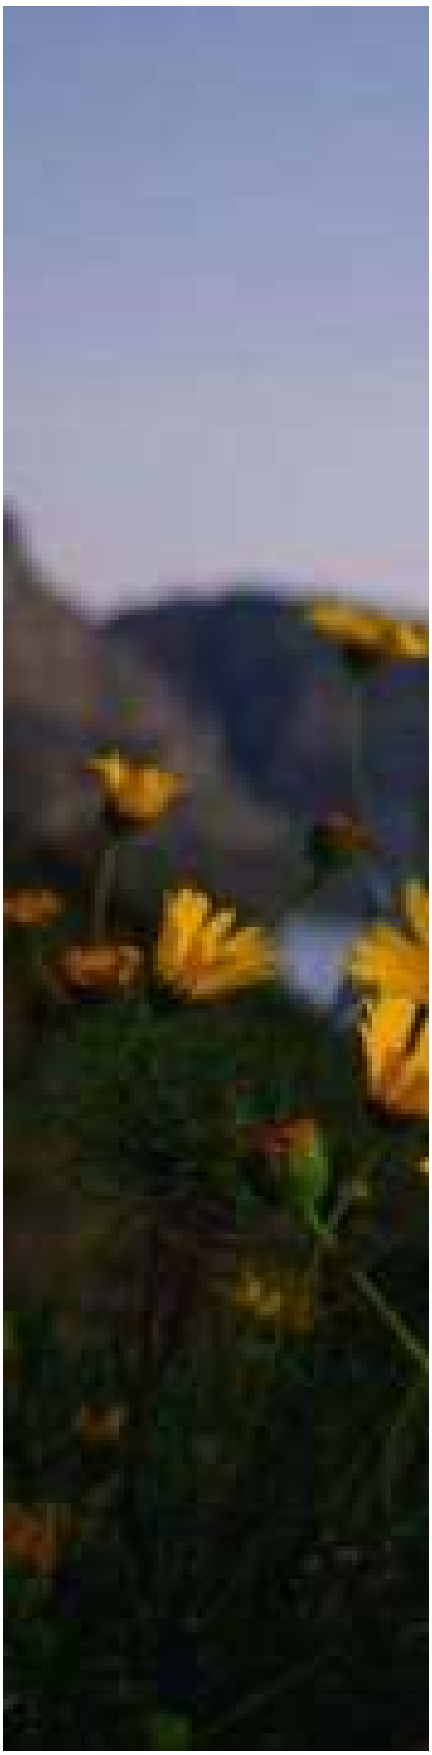

THOSE WHO SPEAK

There are some,
who when speak,
the world listens.

There are others,
who when speak,
a small crowd listens.

Then there are the few,
who when speak,
are spoken over by others
and forgotten.

Hrieshita Vashishth XII A

"No, Mom, I don't want to go to school," screamed the 11-year-old me, anxious about my first day in 5th grade at a new school. Little did I know, that shy 5th grader would grow into the young woman I am today—now in 12th grade, utterly in disbelief that my school journey is coming to an end. The laughter, the game periods, the lunch breaks, and all the friends I've made along the way—these memories will stay with me for a lifetime. From the joy of earning a star in my notebook back in 5th grade to the nervousness of writing board exams in 10th, we've all grown so much. Yet, one thing remains unchanged: the thrill of getting a star, whether it's for a perfect answer on a 6-mark question or simply for a neat notebook.

At first, school felt like nothing short of a nightmare—waking up early was dreadful, and attending social studies class after lunch often meant mastering the art of sleeping with eyes wide open. And what could possibly be scarier than the entire Conjuring universe? The dreaded nail, shoe, and ID card checks after assembly! Yet, despite all the complaints back then, I know deep down that I'm going to miss it all—the chaos, the laughter, and even those little moments we once found unbearable.

School life took a whole new turn after 10th grade—11th and 12th felt different, in the best way possible. My senior secondary years became the most memorable chapter of my school journey. Despite the pressure of board exams, we still managed to have a blast.

The intense badminton matches during breaks, the endless fun in math class, the frustration of drawing five-six lines using a ruler on every page in accountancy, the engaging economy discussions in economics, and the insightful finance lessons in business studies—all of it felt special in its own way. Looking back, I must admit that these two years will be the ones I miss the most from my entire time at school. As I sit here, drafting this article and wishing to relive these cherished moments, I can't help but feel immensely grateful for all the opportunities this school has given me. The thought of stepping out of my comfort zone into an unfamiliar world is undeniably daunting—but isn't that what life is all about?

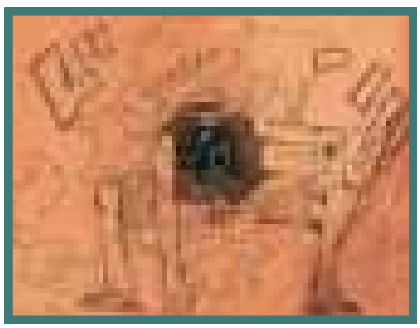

Looking back, I realize that I've spent enough time within these walls, and perhaps the outside world is now calling me, ready to teach lessons far beyond trigonometry and chemical reactions. The echoes of these corridors will forever linger in my heart, and the laughter shared during math classes will always bring me comfort during life's challenges. As I reminisce about my very first day in this once-unknown school, I can't help but smile at that little girl who stepped in with uncertainty, unaware of the beautiful journey that awaited her. And you know what? She had fun—enough fun to one day share her school stories with her future kids, just as our parents once shared theirs with us.

CHAOS, FRIENDSHIP, AND FUN!

Apoorva S.
8-E

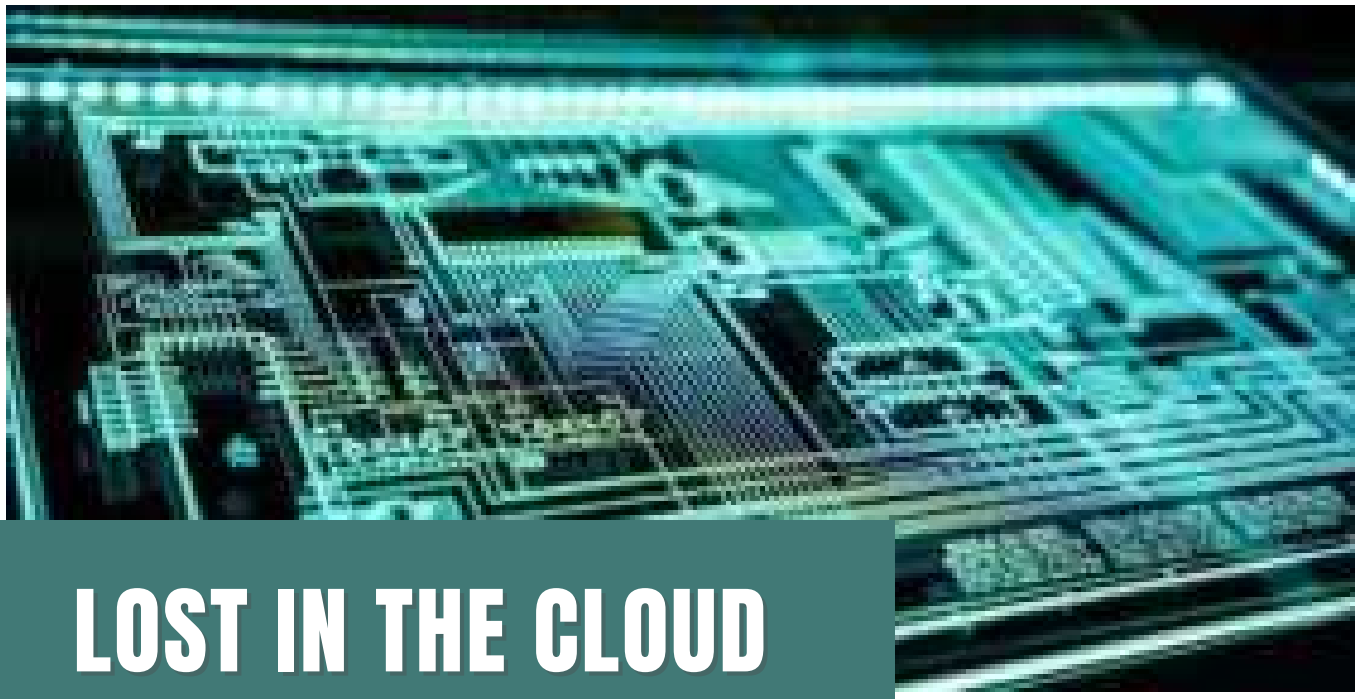

8th grade was a rollercoaster for me it was a mixture of emotions. I was glad at first to have my classmates also my best friends with me throughout it. And to be honest I have also been a little chaotic. After all it is the last year of fun because 9th will be all about hard work and studies. So for those unfortunate people who haven't made any friends this year it's alright!! Now sit and study hard for your exams.!

LOST IN THE CLOUD

How Excessive Internet Use Affects Our Memory.

In today's world, the internet plays a vital role in our daily lives, serving as a tool for learning, socializing, entertainment, and much more. While the internet offers numerous advantages, it also comes with significant drawbacks, the most alarming of which is its impact on our memory retention ability. As we increasingly rely on digital resources, understanding how excessive internet use affects our cognitive functions is crucial for maintaining our mental health and memory.

The Lindsley professor of psychology Daniel Wegner says that when people have access to search engines like Google, they remember fewer facts and less information because they rely on the internet to store information for them instead of remembering it themselves. This is known as 'digital outsourcing'.

Research also showed that when we search for information, we tend to forget the details. A study found that people who tend to search for answers forget what they learned quickly compared to those who engage with the topics in a deeper way

According to research published in the journal 'World Psychiatry', the constant flow of messages and alerts on the internet makes it hard for us to focus on one thing at a time, which in turn reduces our ability to concentrate for a longer period of time.

While we search for information on the internet, we often scroll through social media, which can hurt our memory. Studies show that multitasking makes it harder for us to focus or remember things. Now computers and technology are becoming virtual extensions of our memory, this can be particularly disastrous for students. However, if one actively engages with the information, they find online by writing it down or discussing it with others, it becomes easier for our brains to store that information.

While the internet is a fantastic tool of information, finding balance is crucial. One can do this by limiting the time spent on the internet, taking regular breaks from the screen—either by reading a book or talking with friends or family—and focusing on one task at a time when studying to ensure that information is retained. We can be mindful of our internet habits and try to engage with the information on a deeper level to protect our memory and also enhance our learning. In a world filled with digital distractions, let's strive for a healthier relationship with the internet!

THE COURAGE EQUATION

Mr. and Mrs. Everhart, of number four, Meadowridge, were having a bowl of cereal and milk. Mr. Everhart was a tall, distinguished gentleman in his early 40s. He was the director of firm which made screwdriver sets. Mrs. Everhart, in her late 30s, was a woman with a graceful and mesmerizing charm. She worked as a wedding organizer.

"Lucas, what is taking them so long to come down for breakfast!" said Mrs. Everhart to her husband. You might be wondering whom were they talking about. They of course were talking about their children, Joule and Roderick Everhart.
Joule Everhart was a thoughtful, creative, and clumsy 12 y o girl. She was in grade 7 and had a knack for photography. Roderick, however was the polar opposite of his sister. Roderick was practical, systematic, coordinated and direct. He was in his last year of school and had a zealous passion for reading. Both siblings would often quarrel over petty disputes.

"Joule! Roderick! "shouted their mother, "Come down for breakfast!" Joule and Roderick rushed down the stairs, making Joule fall down face flat on the carpet. Their father helped Joule get up and asked, "Roderick, did you push your sister down?" in his stern voice. A scared Roderick replied, "Uh... No, father." Their mother, who was unaware of the exchange between Mr. Everhart and Roderick said, "Having your breakfast kids, before the milk gets cold." Joule and Roderick devoured in haste and after hurried good-byes left for school.

When they reached school, Joule saw her friend Vale and went to greet her, "Good Morning, Vay." Vale gives an energetic response saying, "Hey J, come 'on let's head to class. We've got our first period with Ms. Sophie today." Ms. Sophie was their Science teacher. She was known for her warm and approachable demeanor by the whole school. "Good morning, everyone!" Ms. Sophie greeted the class, "Today we're going to learn about...." Everyone listened with great interest. They all liked Ms. Sophie, she was very much unlike their Math teacher, Mr. Euclid. Mr. Euclid, the strict math teacher was a formidable presence. He would often take their PE period and continually rant formulas and would snap at them if they dozed off. Mr. Euclid hated Joule with a passion. He would often blame her for absolutely nothing. If her classmates' s pencil fell down, she would be blamed and given detention.

One fine day, Joule saw Roderick being bullied, "Ha, ha." Joule rushed over to her brother after the bullies went away and asked her brother why were they bullying him, "Hey Roderick, why are they bullying you?" To this Roderick replies, "Were you misbehaving with Mr. Euclid?" "No, of course not. Normally it is the other way around." Roderick said, "Let's talk to our parents about this teacher in the evening." Joule agrees and continues her day. Later she sees Vale being bullied by those same bullies. This time she confronts them and states with hostility, "Don't take it out on my friends and family. If you have the guts, then face me!" Hearing this the bullies fled and Joule, Roderick and Vale go to number four, Meadowridge and tell Mr. and Mrs. Everhart everything. Hearing their testimony, Mr. and Mrs. Everhart are furious at Mr. Euclid. Turns out Mr. Everhart and Mr. Euclid were arch nemeses since their school days because Mr. Everhart scored more than Mr. Euclid which made him jealous of Mr. Everhart and he wanted to take revenge by hurting Joule. Mr. and Mrs. Everhart immediately called the school and the next day Joule notices Ms. Sophie was taking their math period. She told the girls that Mr. Euclid was fired and she would be taking their math classes until a new teacher joins the school. Their classmates badger Ms. Sophie on why Mr. Euclid was fired, "Oh miss, please tell us why was Mr. Euclid fired?" To this Ms. Sophie winks Joule and Vale and they grin for they very well know the reason for which Mr. Euclid was fired. The bullies were given 3 months of suspension to repent their ways. All is well.

BLESSING IN DISGUISE

By Sai Sanjna
X-A

Perhaps I would have
lived in an abyss,
A world full of darkness
and chills.
Small, young, and alone,
And not a single one to
lean on—none.

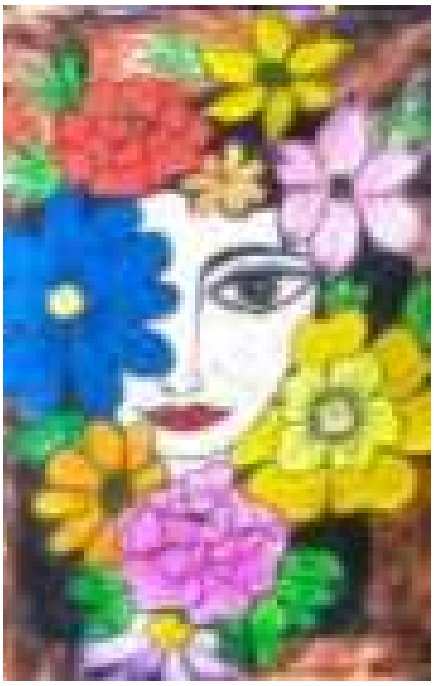

There! A blessing in
disguise,
To ameliorate
From a path I couldn't
have faced.

Fifteen chapters from my
life with you,
Were like fifteen pages
through.
And for sure, I know
where my time ages,
The last seven lines are
yours in my final pages.
For that's how long I'll
remember you.

And I'll only wait,
For the same blessing in
disguise.

MOONBOWS

Himaja T.
5-D

Moonbows are just like rainbows and both occur when there is moisture in the air, but unlike rainbows, moonbows occur at night due to the moon's light. The colors appear dimmer, but if you look carefully, you might just catch a glimpse of this magnificent phenomenon. So, after it rains at night, look up and you might just see a mooonbow!

C.S. Shravya 6-E

Myra was a little girl of twelve years. Her final exams had recently ended and the summer holidays begun. She was a smart girl who was very good in academics and quiet well in sports too. You would think that her parents would have no complaint from her. 'Myra, why are you wasting time', her mother called out to her. You
have to complete this year's books by the end of the holidays. Do you even remember? "Mom, our finals ended just now. Can I please have two days of rest and then I will start studying?" Myra said
in a serious but excuse making tone. Ok, but only two days not more than that. As you can see her parents wanted her to study even more. Myra, seeing out of the balcony noticed four to five year olds playing without any tension of studies. Myra could not help but wish that she was a little girl too.

After thinking and planning a bit more, Myra goes out for a walk as the weather was not that sunny and it was better than being bored at home. Suddenly while walking she notices a beggar. She gave a few coins to him. The beggar didn't care so Myra asked
why are you dressed as a beggar officer. How do you know? Anyone would get to know, you didn't care when I gave you those coins. A normal beggar would have atleast thanked me. You're beard looks so clean.
You are trying to hide those earplugs, like any other cop or detective. You are so uncomfortable and just want to go from here. Now, can I help you in any way? You are smart. I am Officer Mickey, you see, there had been a robbery in that bank and no one had got out with the valuables and all the doors had been locked completely. Simple, you see that couple coming out it's them. The woman may look pregnant but it's the valuables. Anything, how are you so sure? They are sweating in such pleasant weather, of course out of fear. Also, the man has the wedding ring but the woman doesn't. Now stop staring at me and please go and catch them. Mickey went and told
the other officers and finally caught them.

As said by Myra, they were actually the burglars. Mickey thanks Myra and bought her an ice cream. 'I was just like you when I was young but I lost that quality now' said Mickey. 'It's ok, just try to focus on small things' Myra said in a relieving tone. Mickey thanks her for both , catching the thief's and for the advice. Secretly he wishes to be a child again so that he could gain more and retain his knowledge.

The next day, Myra woke up late. She heard laughing voices coming from the hall. When she went, she found her dearest grandmother sitting in front of her eyes. She couldn't believe it and pinched herself, it was real. She goes and hugs her
grandmother. 'How are you sweet heart? I am meeting you after such a long time'. Her grandmother said. Myra used to live with her grandmother when she was younger and thus she was more connected to her grandmother more than her own parents.

Kiara, Myra's younger sister who was just six years old wasn't that connected to her grandparents. Granny had some injury in her leg recently. Doctor said a younger person could have recovered easily but they couldn't help it for granny. So, she had some difficulty in walking now. She told stories to the sisters about when she was
young, such a graceful dancer she was and now she couldn't even walk properly. 'Its ok granny' Myra comforted her. Many such stories about dance and music, some real, some made up by granny helped Myra develop interest in music and dance. Her own parents weren't against in but wanted her to focus more on studying rather than
extracurricular activities. While you got to know all this Kiara slipped and fell and is now crying. Kiara, like fell many times and it was nothing new now, but still as she was the younger one , she had to get love and attention. Myra on the other hand was the opposite; she wouldn't even tell anyone till it was a major hurt.
OH! 'Nothing to worry dear' said mother. Is she fine? Asked grandmother. Ya! Just fine. 'Wahhhh wahhhh waaaah wwaaaahhhhh' went on Kiara. You don't have to cry dear. I'll take her to the playing room, said mother. Grandmother wished so bad that she was young once more and that she could dance and sing to her children.

Grandmother goes to freshen up and rest as she was tired after the long journey. Kiara goes to watch T.V and Myra goes to get ready. After having breakfast even Myra wanted to watch T.V and she asks Kiara for it. Kiara refuses as one of her favorite shows were up. They both had a valid point and they start fighting. Mother got irritated and scolded both of them. She asked Myra to take the remote after half an hour and Kiara to decently give it to Myra after half an hour. Mother wishes to be old as soon as possible and get rid of responsibilities or to be a student again to study and pursue the occupations she likes.

You know that Kiara was the younger one and would probably think that she would be very happy as most of her demands would be agreed on. Again the situations were completely different. Kiara, complete your homework, if you don't want to be in remedial this year. 'Look at your sister, learn something from her' said her mother. Mother, 'can I please start from tomorrow. Summer holidays just began.' 'Please, I know very well that you are telling that only because your sister did and I allowed her. From tomorrow she would be studying atleast four hours per
day. You only study one hour. Don't make excuses and take out your books, the mother said.' But do you think Kiara would listen? She started crying, she hoped so badly that she was the elder sibling but it wasn't possible.

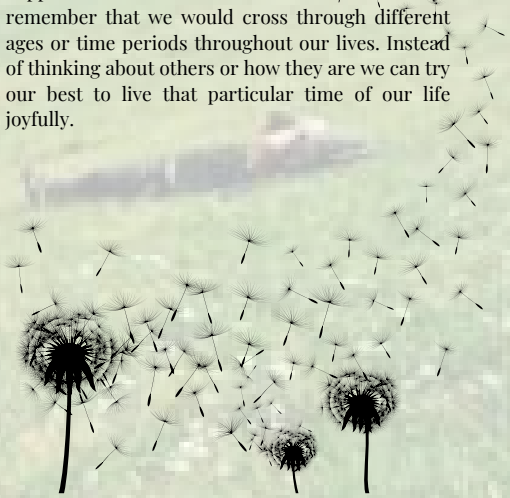

Kiara tries to stop crying and go to her mother saying she didn't want to study. By this time grandmother wakes up and asks Kiara why she was upset. When she got to know the reason, she goes to mother and asks her to leave Kiara today but instead Kiara studies two hours the next day. Kiara was still upset and goes down to play around 5:30. After two to three hours, she didn't come back.

At this point of time the mother felt guilty and thought Kiara left because of her. Myra tried to search her sister everywhere in the apartment. When everyone became tensed that Kiara didn't return, the door bell rang. After opening the door, everyone found that Kiara went to her friend's house and had told her friend's parents, not to message her own parents that she was here. She slept there only, after having her snacks. Kiara's mother thanked and apologized to her friend's parents. This little girl is sleeping peacefully after giving tension to all of us, said Myra. Myra was angry that she couldn't go down to play. Mother, who was very happy, said that she could play half an hour the next day. Myra agreed but didn't understand why her mother was overjoyed. One the other hand Kiara wasn't sleeping peacefully but with nightmare of academics. The sisters were awfully sad that today was the last day of Granny with them. She was leaving tomorrow. Granny always traveled by train as flight was something very new to her and she couldn't adjust to it easily. One person always used to come for the pick and drop of Granny as she couldn't walk properly. 'When is he going to come, asked Granny?' 'He is going to come in an hour, pack your bag Granny. I know you won't miss us, said Kiara.' 'Oh Kiara, that is not true. I'll miss all of you here, I had a good time and I see you did too.' Myra hugged her Granny and started sobbing. Stop crying, I'm here with you now. I know you will miss me but promise me that you will say good bye to me with a smile and not crying, like brave girls. They talked almost the whole of the time and Granny instructed the girls so much about their behavior and to be friends with each other. Next morning Myra went to the station to bid good bye to Granny. Kiara couldn't go as she had a class. At the station Granny held a purse but suddenly a pocket thief snatches the purse from her. A police officer saw the thief and started to run behind him. Without thinking twice, Myra too started running behind him. Myra was actually fast, she ran so swiftly that the thief was caught in no time. By the time she caught him, the police also arrived. The thief was caught and the purse was returned back to Granny.

It was found that the police officer was Officer Mickey whom Myra already met before and helped catch the bank thief. Everyone gave round of applause to Myra and bid good bye to Granny, smiling. But secretly everyone wanted to be as brave as little Myra who
was already contributing for saving the common citizens of the country

Both Myra and Kiara had to complete their holiday homework and start studying from the next day. Myra finished her homework in the next week and started studying the next grade books. Kiara also put a target that she shouldn't be in remedial this year and started studying wholeheartedly. Time flies, the statement applies to each and every student, especially during the summer holidays. Myra and Kiara also felt the same. Myra won the 2nd prize in the society art completion and Kiara won 3rd prize in the 100 meters race during the summer holidays. Both girls were happy and satisfied about their utilization of the holidays. They were now excited for their first day of school and the adventures that await for the coming up academic year.

Whether you have noticed or not, in every story one or the other person was wishing to change their age or how they were. It is a common prospective of every individual human being that we intend to feel, to be young once again or to grow faster. Time is a crucial aspect of anyone's life. We should not forget that we will be also old one day and we were also young some day. We cherish to live each and every moment of our life with joy and happiness as who know what may happen the next minute. We should always remember that we would cross through different ages or time periods throughout our lives. Instead of thinking about others or how they are we can try our best to live that particular time of our life joyfully.
